```
npm install stylus stylus-loader --save-dev
```

```
import 'common/stylus/index.styl'
```

必须使用单引号

webpack.base.conf.js

```
resolve: {
    extensions: ['.js', '.vue', '.json','.styl'],
    alias: {                   // 配置别名
        'vue$': 'vue/dist/vue.esm.js',
        '@': resolve('src'),
        'common': resolve('src/common'),
        'components': resolve('src/components'),
        'base': resolve('src/base'),
        'api': resolve('src/api')
    }
},
```
